OKPOL® ROOF WINDOWS

FLASHING U

FOR PROFILED ROOFING MATERIAL

U FLASHING ALLOWS THE WINDOW TO BE CONNECTED TO PROFILED ROOFING MATERIALS. IT IS MADE OF SHEET ALUMINIUM COATED WITH GREY POLYESTER. THE LEAD OR ALUMINIUM APRON CAN BE EASILY SHAPED TO EVERY KIND OF ROOFING MATERIAL.

COLOUR RAL 7022

KOMBI FLASHINGS

KOMBI FLASHINGS allow windows to be joined in vertical and horizontal groups. Thanks to the similar external appearance of all the types of roof windows the different models can be connected in one combination.
